

ABRAHAM LINCOLN CAPITAL AIRPORT

Sunday's tornadoes

The paths of the two tornadoes that hit Springfield are shown below, with the primary damage areas of each according to the National Weather Service in Lincoln. Extensive wind damage did occur in other areas as well. The map above shows the entire path of the storm that created the tornadoes which covered 730 miles in five states.

Tornado 1:
 Began about 8:20 p.m.;
 on the ground for about
 six minutes covering nearly
 five and a half miles.

Tornado 2:
 Began about 8:25 p.m.;
 on the ground for about
 five minutes covering
 nearly four miles.
